To: Christine Brodsky; Hayley Cape; Bcc: Michael Mumma; Cameron Aldridge

I wanted to follow up on my request from last week regarding the submission of weekly Social Media analytics reports each Thursday. I have not yet received any reports or updates.

Additionally, when I checked Meta this morning, I noticed that we have not posted anything since April 10th, and there are no upcoming posts scheduled. With Earth Day approaching and this year marking the 55th anniversary, it would be valuable to share a post highlighting our initiatives to protect the earth.

Please provide an update on the analytics reports and confirm if an Earth Day post is being planned. Thank you.

BLACKSTREAM

CHRISTIE'S
INTERNATIONAL REAL ESTATE

Blackstream

20 Overbrook Ct Ste 400, Greenville, SC 29607

As part of our ongoing efforts to optimize and align our social media strategies with each business entity's goals, I am requesting weekly analytics updates for every platform where Blackstream has a presence.

This will cover the following entities:

- Contender
- Blackstream Christie's
- Blackstream Commercial
- Nash Homes
- Adwerx

What to Include in Each Weekly Report

Please ensure each report is broken down by platform and business entity, and includes the following key components:

- **Strategic Goal Tracking:** Clearly state the primary social media goal for each entity (e.g., recruitment for Blackstream Christie's, thought-leadership for Blackstream Christie's and Contender, lifestyle inspiration for Blackstream and Nash Homes, etc.). Relate the data to how we are progressing toward these objectives.
- **Content Performance:**
 - Number of posts published
 - Top-performing posts (by engagement or reach)
- **Audience Growth:**
 - Follower/subscriber count and growth rate
 - Demographic and geographic breakdowns where available
- **Engagement Metrics:**
 - Likes, reactions, comments, and shares per post
 - Engagement rate (interactions divided by total followers or impressions)
 - Video views and completion rates (if applicable)
- **Reach & Impressions:**
 - Total and per-post reach

- Total and per-post impressions
- **Website & Conversion Metrics:**
 - Clicks on post links and bio links
 - Website traffic referred from social media
 - Conversions (e.g., lead form fills, downloads, sign-ups, or purchases as relevant to each entity's goal)
- **Share of Voice & Brand Mentions:**
 - Brand mentions (direct and indirect)
 - Social share of voice compared to competitors (if available)⁵
- **Sentiment Analysis:**
 - General sentiment trends (positive, neutral, negative) if the platform provides this data
- **Recommendations & Insights:**
 - Brief summary of key takeaways
 - Recommendations for content, targeting, or strategy adjustments based on the data

Reporting Cadence and Format

- Please send these updates by end of day each Thursday (prior to Friday's report and marketing meeting), covering the previous week's activity.
- Use visuals (charts/graphs) where possible for clarity.
- If we are using an analytics tools, please include exported reports as attachments and add a short executive summary in the email body.

Purpose

These weekly updates will help us:

- Quickly identify trends and opportunities for each business unit
- Ensure our content and engagement are aligned with strategic goals (recruitment, thought-leadership, lifestyle inspiration, etc.)

- Make data-driven decisions and optimize our social media presence across all platforms

Let me know if you have any questions. Thank you for your attention to detail and collaboration on this initiative.
