Hi Susan,

As I work on developing Contender's 2026 Marketing Budget, I'd love to connect with you to review some of the marketing expenses you managed last year. Your experience and insight into what was spent—and with whom—will be tremendously helpful in making sure I approach this thoughtfully and accurately.

I know you probably handled things as they came up, but I also imagine you've got a great sense of the details that will guide me as I pull everything together.

Would you have some time in the next week or so to sit down and go over it? I'd really appreciate your help. Thanks so much - Beth
